PAWTHEREUM

W H I T E P A P E R

A decentralized, community-run charity cryptocurrency project that
gives back to animal shelters and advocates for the well-being of animals
in need.

*Changing the World
One Paw at a Time*

Contents

Welcome to
PAWTHEREUM

Pawthereum is a cryptocurrency project with animal welfare at its core. Our mission is to support animal shelters and be a digital advocate for animals in need.

All too often, smaller animal shelters struggle financially, often overlooked and overshadowed by larger charitable organisations. **Pawthereum** was created to address this.

We aim to become the leading disruptor of charitable inclusion by utilizing the advantages of blockchain technology to obtain funding, bypass the middleman, and donate directly to animal shelters around the world.

Our vision is not limited only to providing aid to shelters. We also plan to teach animal-based charities on the benefits of decentralized finance and digital asset ownership. This outreach and education component is part of our long-term roadmap.

With your support, Pawthereum has the potential to transform the fortunes of animal-care organizations around the world, while helping safeguard the rights of our furry friends.

Use your $PAWTH tokens to vote on project proposals such as donation decisions, community prizes, and policies that govern the Pawthereum ecosystem!

OUR VALUES

To be ethical, fair, and transparent in our charity missions, and to always be accountable towards our community.

"*Every stray deserves a chance at love, a home and a warm bed to sleep at night.*"

- Pawthereum Philosophy -

OUR VISION

We strive to be a true charity-focused cryptocurrency that provides aid to animal shelters, develops a digital ecosystem for charities to receive aid, and advocates for the well-being of animals in need around the world.

3. Donate

After the votes are tallied, the Pawthereum core team will ensure the donation is delivered and received by the chosen shelter or charity through blockchain.

Pawth
to Charity

1. Launch

Our charity mechanism ensures we always have a pool of funds for donations. The progress of our charity drives can be tracked here:
https://pawthereum.com/charity

2. Voting

A list of charities are shortlisted from submissions and nominations every month. All Pawthereum holders will be able to vote here:
https://vote.pawthereum.com

4. Repeat

Pawthereum aims to donate to an animal shelter or animal-related charity at least once per month, with a focus on smaller organisations that need immediate assistance.

Tokenomics ETH

Both the original and maximum token supply is 1 billion (1,000,000,000). On 22th October of 2021, 14.2% of the total supply of tokens were burned leaving 858 million as the total supply. As the trading volume and number of transactions increase, the balance of every holder will increase accordingly as well. Just sit back, HODL, and watch your $PAWTH balance grow as you benefit animals around the world!

BE PART OF A PAWSITIVE MOVEMENT

Use your $PAWTH tokens to vote on project proposals such as donation decisions, community prizes, and policies that govern the Pawthereum ecosystem!

The first and foremost goal of Pawthereum is to provide aid to animal shelters around the world. Our smart contract is fully decentralized and provides automated redistribution of the $PAWTH token. A 2% fee on every $PAWTH transaction is automatically split between the charity wallet and all of the holders.

Charity: Our priority is to be charitable; therefore, 1% of all transactions go directly to a secure multi-signature ERC-20 wallet which can be tracked with full transparency by anyone via etherscan.io and our website. Once a charity is chosen by the community, the accumulated funds will be donated, and the wallet will begin to refill as more transactions occur. Pawthereum aims to donate to an animal shelter or animal-related charity at least once every month!

Community Reflections: "All for one, and one for all!". As a community-driven project, each Pawthereum holder will get to decide on the charities to which Pawthereum donates, and they also have a say in our our roadmap. Every member of the community has a genuine impact on the project's future! We reward our holders with a 1% fee on every $PAWTH transaction, which is redistributed amongst all holders in the form of a free and automatic airdrop directly to their wallets.

BE PART OF A PAWSITIVE MOVEMENT

Use your $PAWTH tokens to vote on project proposals such as donation decisions, community prizes, and policies that govern the Pawthereum ecosystem!

The first and foremost goal of Pawthereum is to provide aid to animal shelters around the world. Our smart contract is fully decentralized and it provides automated redistribution of the $PAWTH token. An 8% fee on every $PAWTH transaction is automatically allocated to 4 different aspects.

Charity: Our priority is to be charitable, hence 2% of all transactions goes directly to a secure multi-signature wallet which can be tracked with full transparency by the community via etherscan.io and our website. Once a charity is chosen by the community, the accumulated funds will be donated, and the wallet will begin to refill as more transactions occur. Pawthereum aims to donate to an animal shelter or animal-related charity at least once every month!

Community Reflections: "All for one, and one for all!". As a communitydriven project, each Pawthereum holder will get to decide on the charities to which Pawthereum donates, and they also have a say in our our roadmap. Every member of the community has a genuine impact on the project's future! We reward our holders with a 2% fee on every $PAWTH transaction, which is redistributed amongst all holders in the form of a free and automatic airdrop directly to their wallets.

Liquidity: In DeFi, liquidity refers to the ease with which one can convert one cryptocurrency to another. A strong liquidity pool is an essential aspect of a successful digital asset. More liquidity makes an asset easier to trade without running into problems like high slippage. 2% of all $PAWTH transactions will be sent to the liquidity pool to keep the token highly liquid for our community.

Development/Marketing: Continued development and marketing are essential factors that help a cryptocurrency project succeed over time. Therefore, 2% of all $PAWTH transactions will go the development/marketing wallet. These funds will be used for additional exchange listings, development of new features, securing partnerships, promotion of the token, and much more.

A MESSAGE TO SHELTERS

1. Get In Touch With Us
Let the Pawthereum community know that you are interested in receiving a donation from us. We can help with any questions you have. For example, "How and from where are the funds collected?". You can find our contact details at the end of the whitepaper.

2. Set Up a Crypto Wallet
We understand that opening a crypto wallet may sound foreign and difficult. Luckily, Coinbase Wallet has made it easy, and we consider it to be the simplest one to set up. (https://wallet.coinbase.com)
Of course, we can assist you along at every step.

3. Await Our Voting Process
Before the charity drive ends, we will put open up voting to the Pawthereum community for a transparent vote as to which shelter will receive the donation. You can check the current candidates at
https://vote.pawthereum.com

4. We Love Feedback!
We know it is important for the Pawthereum community to see how their donations have helped. We would love for you to send us an update with some pictures of the animals to show the community how their efforts have made a difference.

For more information regarding our charity selection process, visit our website or email us at
contact@pawthereum.com

History

The Incredible Story of How It All Started

THE GRUMPY LEGACY

Pawthereum is the new name and face for a token previously known as **Grumpy**, and we intend to honor the legacy of it. We believe it is imperative that we document our history so that our community, new and old alike, can understand the numerous obstacles that we overcame together. We hope that this serves as a reminder that our community is determined to push forward through any challenges that stand in our Pawth.

Grumpy was created in early **February 2021** to help cats in animal shelters in honor of the late Tardar Sauce (the Grumpy Cat meme).

Under the Grumpy name, a total of **$70,000** was donated to animal shelters. These efforts made national television on **NBC News**! Sadly, the owner and the legal team of Tardar Sauce refused to support the charity initiative, and they sent cease and desist letters to many of the exchanges on which the token was listed. After these setbacks, the original developers were distraught and gave up on the project. However, the community behind Grumpy believed in the charity vision of Grumpy, and they rallied to form a new core team. In the weeks ahead, more C&D letters were issued, and Uniswap bowed to pressure to blacklist the token from trading. To keep Grumpy tradable and easily accessible to holders and future investors, GrumpySwap was created; additionally, the community fundraised **$65,000** to be listed on multiple centralized exchanges, including **big.one**.

The team worked hard for alternative solutions to retain our much-loved Grumpy name. However, the price of the token was severely impacted by these legal issues. In the end, we decided that these obstacles could no longer be allowed to stand in the way of our broader vision. Grumpy needed a fresh start with a new name and logo—an identity that is completely our own. After many brainstorming sessions, the community voted on the name "**Pawthereum**".

Grumpy, however, will always have a place in our hearts. Being a cat-based token, it was revered for having nine lives, because no matter how many challenges it faced, it never failed to land on its feet. Aside from being a charity token, the persistence of the community and the core team means that this coin will always remain special. And these are the traits which we carry unto **Pawthereum** to ensure its success.

Thank you to all those who have stood with us. This is but the beginning of our true journey. *#FollowThePawth*

Where To Buy

Our Team

$PAWTH will soon be available to purchase on our own exchange called PawSwap. It's currently available on other decentralized exchanges such as **Uniswap**, **1inch**, **Shibaswap**, **Pancakeswap** as well as the centralized exchange (CEX) **BigOne**.

We will look to add to the list over time, with carefully selected exchanges added to make buying $PAWTH more accessible.
